REPLACE CUT OVER TIMBER

Areas that have been severely cut over as the one pictured above, should be planted to Loblolly Pine. When the plantings are not made hardwoods replace the desirable pines. Scrub oak and hickory have little commercial value, and require larger periods of time to become marketable.

Areas that have been cut over and a growth of hardwoods have started, should be sprayed with a mixture of 2-4-5T and oil, applied with a basal spray. Spraying kills the undesirable and therefore does not compete with young pine seedlings for sunlight, plant foods and root areas.

Pine plantings in Virginia have returned an average of $59.72* per acre at thinning. This being done at 21.5 years of age. Trees taken out were crooked and undersize. The better trees were left with an average of 28.5 cords for future use. In most cases, thinning could have taken place at an earlier age and a substantial income received at that time. (Figures based on report No. 3, Division of Forestry, Richmond, Virginia).

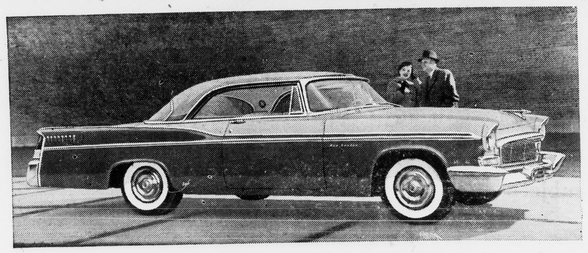
Mr. Floyd Clymer

"Best car manufactured in America today"

That's what Floyd Clymer, famous automobile authority, said about Chrysler in Popular Mechanics (October)



"I have tested many fine automobiles over all kinds of terrain," writes Mr. Clymer, "and in my judgment Chrysler is the best automobile manufactured in America today."

When you compare this Chrysler with the other two major cars in its price class, you will be in for an electrifying awakening. *Because this is power driving as it was meant to be.*

You push the "D" on the Pushbutton PowerFlite Drive and a mighty airplane-type engine whisks you away in an instant. There's a new, wonderfully easy feel-of-the-road with *full-time* PowerPilot Steering . . . a straight, sure, velvety sense of safety in the stops you get with PowerSmooth Brakes . . . a world of authority in the tremendous response of Chrysler's exclusive airplane-type Fire-Power V-8 engine!

Just one look at this car tells you the power's there. You see it in the flairing "PowerStyle" lines . . . in the flight-swept look of its rear deck and fenders.

Let us put you behind the wheel of the "PowerStyle" Chrysler for just 15 minutes this week. Compare its all-around performance with its two price competitors. Then you'll know why *"the best car manufactured in America"* is your best buy! Come in or call us today!
